

Health & Vitality

Forma

Forma uses bipolar radiofrequency heating, ideal for remodeling the skin for a more youthful and natural appearance. This helps improve skin texture and complexion to enhance the skin's overall appearance. Revives aging skin by stimulating the formation of new collagen to improve elasticity. Feel results that look and feel completely natural immediately, during, and after the treatment

PRE-TREATMENT

- Discontinue any irritant topical agents for 2-3 days prior to treatment
- Clean area to be treated before treatment

POST-TREATMENT

- Moisturizer and makeup may be applied immediately after each treatment.

Lumecca

BEST IPL Treatment on the market. Fast improvement in skin complexion, reduces skin irregularities, and helps you look years younger. IPL "photofacial" helps address age spots (red/brown pigmentation), sun damage, vascular lesions (spider veins, port wine stains, leg telangiectasias), rosacea and freckles.

PRE-TREATMENT

- Avoid tanning 3-4 weeks prior treatment of use at least 30 SPF sunblock
- Avoid irritant topical agents for 2-3 days before treatment
- Avoid anticoagulants for 7-10 days prior to treatment, if medically permitted

POST-TREATMENT

- Use sun block for at least 3 weeks following each treatment session
- Aloe Vera may be applied after treatment as needed to soothe the skin
- Ice can be applied to help reduce the warmth
- If treatment is aggressive, can use OTC lidocaine for sunburns to ease sunburn feel
- Moisturizer may be applied after each treatment
- Make-up may be applied immediately after the treatment if skin is intact

DiolazeXL

Our hair removal technology requires less treatments to get rid of unwanted hair. Treatments are faster and more convenient. Even better, most patients report little to no pain, due to 3PC Cooling (before, during and after cooling) that provides the ultimate in patient comfort.

PRE-TREATMENT

- Avoid tanning 3-4 weeks prior treatment, or use at least 30 SPF sun block
- Avoid irritant topical agents for 2-3 days before treatment
- Avoid anticoagulants for 7-10 days prior to treatment, if medically permitted
- No waxing for at least 4 weeks before treatment
- Shave area to be treated the day before or day of treatment

POST-TREATMENT

- Sun block should be used for at least 3 weeks following the treatment
- Moisturizer may be applied after each treatment
- Make-up may be applied immediately after facial treatment if skin is intact
